

Ethernet

Copper Patch Cables offer the reliability of pure copper leads - no copper coated aluminum (CCA) and the durability of jackets and boots. Each cable is RoHS compliant which certifies that dangerous chemicals such as lead, cadmium, mercury and other harmful substances are absent. TIA/EIA Straight Through 568B wiring at both RJ45 male connectors assures that these cables are pinned in a fashion that guarantees compatibility. The CM jackets used in these cables comply with UL-1865 testing defining. To view our full selection of Ethernet cabling visit www.cablesandkits.com/ethernet.

Cat5e

Connector 1: RJ45
Connector 2: RJ45
Gauge: 24 AWG
Speed Rating: 350 Mhz

Booted: Yes
Shielded: No
Wiring Type: Straight-Thru
Category: Cat5e

Jacket Type: General Purpose(CM)
Conductor Type: Stranded
